## Best Aid Limited

Best Aid is a growing health tech company in Bangladesh. We are the portfolio startup of ICT Division of Bangladesh. We want to ensure quality health care for everyone. With government collaboration we completed few projects. In pandemic, we are one of the portfolio rescue health company of Bangladesh government. We have evolved from an idea based to a revenue generating health tech company, with over 37,000 patients all over the country.

In the year of 2021 we also launched the Best Aid Telehealth project with the facilitation of the ICT Ministry to ensure quality health care for the 30,000 Rohingya people in Bhasanchar.

Currently we are working on different projects like Digital Health Record system, Health Assistant and some IoT devices which can be revolutionary in the future health tech industry of our country.
